🔗 Anjali-S-Prabhu

SUMMARY

Artificial Intelligence and Machine Learning student with hands-on experience in developing AI-powered applications, machine learning systems, computer vision, NLP, and full-stack solutions. Skilled in Python, FastAPI, Flask, React, databases, and AI/LLM integrations, with practical experience building and deploying real-world projects.

EDUCATION

Alva's Institute of Engineering & Technology, Mijar, Moodbidri

2023 - Present

B.E. in Artificial Intelligence and Machine Learning - CGPA: 8.1

EXPERIENCE

Data Science Intern – Prodigy InfoTech

Mar 2026 - Mar 2026

Data Science, Data Analysis, Machine Learning, Data Preprocessing

- Worked on data science tasks involving data preprocessing, cleaning, analysis, and interpretation of real-world datasets.
- Applied data analysis and machine learning techniques to identify patterns, derive meaningful insights, and support data-driven problem solving.

PROJECTS

Hospital Information Assistant | 2026

FastAPI, PostgreSQL, SQLAlchemy, LangChain, Groq Llama-3, Qdrant, AWS S3, Docker, React, TypeScript

- Built a production-grade hospital information system using FastAPI and SQLAlchemy with support for patient management, appointments, file uploads, and JWT/OAuth2 authentication.
- Integrated an AI-powered chatbot using LangChain and Groq's Llama-3 LLM with a RAG pipeline using FastEmbed and Qdrant for context-aware hospital information retrieval.
- Containerized and deployed the full-stack application using Docker and Docker Compose, with a React and TypeScript frontend and AWS S3 for cloud-based file storage.

Hand Gestures Real Time Sign Language Detection Using OpenCV | 2026

Python, OpenCV, Computer Vision, Image Processing, Hand Landmark Detection, Gesture Classification

- Developed a real-time Sign Language Detection System using Python and OpenCV to recognize hand gestures through a webcam.
- Implemented image preprocessing, hand landmark detection, and gesture classification techniques for accurate real-time gesture recognition.
- Converted detected hand gestures into readable text to support accessible communication, with a focus on improving detection accuracy and real-time performance.

TECHNICAL SKILLS

- **Programming:** Python, SQL
- **AI/ML & GenAI:** Machine Learning, NLP, NumPy, Pandas, Scikit-learn, TensorFlow, LLMs, RAG, LangChain
- **APIs & Development:** REST APIs, Docker, Terraform, Render, VS Code
- **Cloud & DevOps:** AWS, Firebase, Linux, Kubernetes, Ansible, CI/CD, Git, GitHub
- **CS Fundamentals:** OOPs, Computer Networks, Operating Systems
- **Core Skills:** Problem Solving, Analytical Thinking, Debugging, Team Collaboration, Communication

CERTIFICATIONS

- **Introduction to Artificial Intelligence and Machine Learning** – Infosys Springboard
- **Cloud Computing** – NPTEL, Elite Ranking
- **Google Cloud Data Analytics** – Google Cloud Career Launchpad

ACHIEVEMENTS

- **Certificate of Appreciation** – Cognizant Technoverse Hackathon 2026 for demonstrating problem-solving, collaboration, and technical skills.
- **Karnataka State Police Datathon 2026** – Participated in a nationwide innovation challenge focused on AI, Data Analytics, and crime investigation solutions.
